

SAFETY DATA SHEET

ACCORDING TO WHMIS 2015 and GHS 5TH REVISED EDITION

REV	Description	Date	C.R. No.	Orig	Chkd	Apprd
1	First Issue.	2020-04-12		DK	JC	SM

TD075-SP-053 Date: 12 April 2020 Revision 1.0

SAFETY DATA SHEET

ACCORDING TO WHMIS 2015 & GHS 5TH REVISED EDITION

SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE **COMPANY/UNDERTAKING**

1.1 **Product identifier**

> Bioquell HPV-AQ Product Name

Chemical Name Hydrogen Peroxide Solution 35%

Molecular Formula H₂O₂ Type of Product Mixture

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use(s) To be used in conjunction only with Bioquell Hydrogen Peroxide

> Vapour Generating Equipment. Product is for professional use only

1.3 Details of the supplier of the Safety Data Sheet

> Bioquell Technology Canada Ltd Company Identification

Address 2416 Main St, Suite 398.

Vancouver, BC Canada V5T 3E2

Telephone +1 215 475 9129 Fax +1 215 682 0395

E-mail (details of responsible persons

within individual countries)

http://www.bioquell.com/en-uk/contact/distributors/

1.4 **Emergency telephone number**

Americas: +1-760-476-3962 Emergency telephone number

Use access code: 333809

SECTION 2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

2.1.1 GHS 5th revised edition Acute Tox. 4: Oral, H302. Inhalation, H332

Skin Irrit. 2, H315

Serious Eye Dam. 1, H318 STOT SE 3. Inhalation, H335

Oxidizer 2, H272

2.2 Label elements

According to WHMIS 2015 & GHS 5th revised edition 2.2.1 Label elements

Name(s) on Label Bioquell HPV-AQ Hazardous components Hydrogen peroxide (35%)

DANGER Signal Word

Hazard Pictogram

Hazard statement(s) : **H302**: Harmful if swallowed

H315: Causes skin irritation
H332: Harmful if inhaled

H318: Causes serious eye damage **H335:** May cause respiratory irritation **H272:** May intensify fire; oxidizer.

Precautionary statement(s)

<u>Prevention</u>: P210: Keep away from heat, hot surfaces, sparks, open flames and

other ignition sources. No smoking.

P220: Keep away from clothing and other combustible materials.

P261: Avoid breathing gas/mist/vapours/spray.

P270: Do not eat, drink or smoke when using this product **P280**: Wear protective gloves/eye protection/face protection.

Response : P310: Immediately call a POISON CENTRE or doctor/physician

P301 + P312 + P330: IF SWALLOWED: call a POISON CENTRE or

doctor/physician if you feel unwell. Rinse mouth

P302 + P352: IF ON SKIN: Wash with plenty of soap and water. P304 + P340: IF INHALED: Remove person to fresh air and keep at

rest in a position comfortable for breathing

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

P370 + P378: In case of fire: use water to extinguish.

<u>Disposal</u>: **P501**: Dispose of contents / container in accordance with EWC160903,

or applicable local regulations

2.3 Other hazards : None

2.4 Additional Information : None

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Mixtures

3.1.1 Concentration

Substance Name: Concentration:

Hydrogen peroxide solution Ca. 35%

CAS-No.: 7722-84-1 / EC-No.:231-765-0 / Index-No.: 008-003-00-9

EU REACH Registration Number: 01-2119485845-22

Classification according to WHMIS 2015 & GHS 5th revised edition

Hazardous	Hazard Class	Hazard	Route of	H Phrases	Hazard pictogram(s) and Hazard
ingredient(s)		Category	exposure		statement(s)
Hydrogen	Acute toxicity	Category 4	Inhalation	H332	Acute Tox. 4 (Inhalation), H332
peroxide	Acute toxicity	Category 4	Oral	H302	Acute Tox. 4 (Oral), H302
solution 35%	Skin irritant	Category 2		H315	Skin Irrit. 2, H315
	Serious eye	Category 1		H318	Eye Dam. 1, H318
	damage				STOT SE3, H335
	Specific target	Category 3	Inhalation	H335	Oxidizer 2, H272
	organ toxicity -				
	single exposure				
	Oxidizer	Category 2		H272	

3.2 Additional Information : For full text of H/P phrases see section 2.

TD075-SP-053 Page: 2/10 Date: 12 April 2020 Revision 1.0

SECTION 4. FIRST AID MEASURES

+

First aiders should refer to section 8 for appropriate PPE

4.1 Description of first aid measures

If inhaled

: Move the exposed person to fresh air immediately. If person is not breathing, contact emergency medical services, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison centre

or doctor for further treatment advice.

<u>In case of skin contact</u>: Wash with plenty of water and soap.

Remove and wash contaminated clothing before re-use. If symptoms persist seek immediate medical attention.

<u>In case of eye contact</u> : Seek immediate medical attention.

Eyes should be washed immediately with plenty of water, also under the eyelids for 15-20 minutes.Remove contact lenses, if present, after

the first 5 minutes, then continue rinsing.

<u>If swallowed</u>: Seek immediate medical attention.

Rinse mouth and, if conscious, give 2 glasses of water. Never give

anything by mouth to an unconscious person.

DO NOT INDUCE VOMITING.

Oxygen or artificial respiration if needed.

4.2 Most important symptoms and effects, both acute and delayed

Inhalation : Inhalation of vapours is irritating to the respiratory system, may cause

throat pain and cough

Risk of: Nose bleeding, chronic bronchitis.

Skin Contact : Irritation

Risk of: Burn, erythema, blisters or even necrosis.

Eye Contact : Severe eye irritation

Risk of serious damage to eyes

Symptoms: Redness, Lachrymation, swelling of tissue.

<u>Ingestion</u> : Severe irritation

Symptoms: Nausea, Abdominal pain, Vomiting, Diarrohea, Risk of

chemical pneumonitis from product inhalation

4.3 Indication of immediate medical

attention and special treatment

needed

Consult with an ophthalmologist immediately in all cases. If accidently swallowed obtain immediate medical attention.

When symptoms persist or in all cases of doubt, seek medical attention. Because of the likelihood of corrosive effects on the gastrointestinal tract after ingestion, attempts at evacuating the stomach via emesis induction or gastric lavage should be avoided.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing Media

Suitable Extinguishing Media : Water, do not use any other substance

Unsuitable Extinguishing Media : As above

5.2 Special hazards arising from the

substance or mixture

: Not combustible. Decomposes under fire conditions to release oxygen

that intensifies the fire. Risk of explosion in closed, unventilated containers due to increased pressure from decomposition gases.

Contact with combustible material may cause fire.

TD075-SP-053 Page: 3/10 Date: 12 April 2020 Revision 1.0

5.3 Advice for fire-fighters

Fire-fighters should wear appropriate protective equipment and self-

contained breathing apparatus (SCBA).

Wear chemical resistant oversuit and boots (rubber or PVC)

Cool containers/tanks with water spray

If safe to do so, move product away from fire to secure area Prevent fire extinguishing water from contaminating surface water or

the ground water system.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel : Avoid contact with skin, eyes and clothing.

Prevent further leakage or spillage if safe to do so. Isolate and

signpost spill area. Eliminate all sources of ignition.

Advice for emergency responders : Wear suitable protective equipment. Refer to section 5 for fire-fighting;

section 4 for first-aid advice; and section 8 for minimum requirements

for personal protective equipment. Evacuate personnel to safe areas

Keep people away from and up wind of spill/leak

6.2 Environmental precautions : Do not allow to enter drains, sewers or watercourses.

Should not be released into the environment

6.3 Methods and material for : Dam up

containment and cleaning up Do not mix waste streams during collection

Soak up with inert absorbant material

Keep in suitable, closed containers for disposal Never return spills in original containers for re-use

6.4 Reference to other sections : Section 1 for emergency contact. Section 8 for information on

appropriate personal protective equipment.

6.5 Additional Information : None

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling : Avoid ingestion, inhalation and contact with skin and eyes

Use only with adequate ventilation.

Keep away from heat and sources of ignition.

Keep container tightly closed.

Wear protective gloves/clothing and eye/face protection.

Keep away from incompatible products

Use only clean and dry utensils

7.2 Conditions for safe storage, including any incompatibilities

Storage Temperature : Store between 4°C to 25°C

Storage Conditions : Protect from light.

Keep only in original container

Keep away from combustible materials and sources of ignition and

heat.

Store in a receptacle equipped with a vent

Keep container closed

Regularly check the conditions and temperature of the containers.

Incompatible materials : Strong acids, strong alkalis, strong oxidising agents, strong reducing

agents, organic material, acetone and metals.

Suitable material : Aluminium 99.5%

Stainless steel passivated 316 Approved grades of HDPE

Polypropylene

7.3 Specific end use(s) : Apart from the use mentioned in Section 1.2 no other specific uses are

stipulated. For further information please contact supplier.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

8.1.1 Exposure Limit Values

Substance	Standard	Type	Exposure Limit Value	Notes
		TWA	1 ppm	LTEL (8hr)
	UK.EH40 (2011) – Workplace Exposure	TWA	1.4 mg/m ³	LTEL (8hr)
	Limits [WEL]	STEL	2 ppm	
		STEL	2.8 mg/m ³	
	DE.MAK (2012) – Werte Liste	TWA	0.5 ppm	
	DE.IVIAN (2012) – Welle Liste	TWA	0.71 mg/m ³	
	US.ACGIH (2019) – Threshold Limit Values [TLVs]	TWA	1 ppm	
Hydrogen US.OSHA (2019) – Permissible Exposure		TWA	1 ppm	
Peroxide	Limits [PELs]	TWA	1.4 mg/m ³	
CAS: 7722-84-1	US.NIOSH (2019) – Recommended Exposure Limits [RELs]	TWA	1 ppm	(10hr)
	US.Cal/OSHA (2019)	TWA	1 ppm	(8hr)
	CA.British Columbia (2018)	TWA	1 ppm	
	CA.Quebec (2018)	TWA	1 ppm	
	CA. Quebec (2016)	TWA	1.4 mg/m ³	
	CA.TWAEV Ontario (2018)	TWA	1 ppm	
	CA.Alberta (2018)	TWA	1 ppm	
	OA.Alberta (2016)	TWA	1.4 mg/m ³	

8.1.2 Other information on limit values

Substance	Limit	Conditions	Value	Notes
	Predicted No Effect Concentration [PNEC]	Fresh water	0.13 mg/l	
		Marine water	0.013 mg/l	
Hydrogen		Sewage treatment plants	4.7 mg/l	
Peroxide	Derived No Effect Level/Derived minimal effect level [DNEL/DMEL]	Workers, inhalation, acute exposure	3 mg/m ³	Local effects
CAS: 7722-84-1		Workers, inhalation, chronic exposure	1.4 mg/m ³	Local effects
		Consumers, inhalation, acute exposure	1.93 mg/m ³	Local effects
		Consumers, inhalation, chronic exposure	0.21 mg/m ³	Local effects

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Ensure adequate ventilation

Apply technical measures to comply with the occupational exposure

limits

8.2.2 Personal protection equipment

Eye/face protection

: Wear chemical safety glasses with side shields, or splash-proof

goggles

Skin protection (Hand protection/ Other)

Impervious gloves

Suitable material: PVC, butyl-rubber, nitrile rubber

Any specific glove information provided is based on published literature and glove-manufacturer data. Contact the glove manufacturer for glove

selection and breakthrough times for your use conditions.

Inspect and replace worn or damaged gloves. Chemical resistant gloves are recommended.

If contact with forearms is likely, wear gauntlet-style gloves. Nitrile, CEN standards EN 420 and EN 374 provide general requirements and

list of glove types.

Respiratory protection

Appearance

If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate. Respirator selection, use, and maintenance must be in accordance with regulatory requirements. Types of respirator to be considered for this mixture include: Half-face filter respirator; Type A filter material CEN standards EN136, EN140 and EN 405 provide respirator masks and EN 149 and EN 143 provide

filter recommendations.

Hygiene Measures Eye wash bottles or eye wash stations in compliance with applicable

Take off contaminated clothing and shoes immediately

Wash contaminated clothing before re-use When using do not eat, drink or smoke

Wash hands before breaks and at the end of workday

Handle in accordance with good industrial hygiene and safety practice.

Thermal hazards None Known

8.2.3 **Environmental Exposure Controls** Dispose of rinse water in accordance with local and national regulations

Liquid

See sections 6.7.12.13

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

> Colour Colourless Odour Odourless Molecular weight 34 g/mol 2.02 (H₂O₂ 50%) pH (Value) Melting Point (°C) / Freezing Point (°C) -33°C (H₂O₂ 35%) Boiling point/boiling range (°C) 108°C (H₂O₂ 35%) Flash Point (°C) Not applicable Evaporation rate No data available Flammability (solid, gas) Not applicable Explosive limit ranges. No data available

Vapour Pressure (mm Hg) 1 mbar (H₂O₂ 50%) at 30°C

Vapour Density (Air=1) 1

1.1 - 1.2 Density (g/ml)

Solubility (Water) Miscible with water Solubility (Other) No data available

Partition Coefficient (n-Octanol/water) Log Pow: -1.57, Method: calculated value

Auto Ignition Temperature (°C) Not flammable

Decomposition Temperature (°C) >60°C, Self-accelerating decomposition temperature (SADT)

<60°C, Slow composition

Viscosity (mPa.s) 1.17 mPa.s (H₂O₂ 50%), at 20°C

Explosive properties : Not explosive Oxidising properties Oxidizing

9.2 Other information Surface tension - 75.6 mN/m (H₂O₂ 50%) at 20°C

TD075-SP-053 Date: 12 April 2020 Revision 1.0 Page: 6/10

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity : Stable under normal conditions of use.

Decomposes on heating.

Potential for exothermic hazard.

10.2 Chemical stability : Stable under recommended storage conditions.

Sensitive to heat and light.

10.3 Possibility of hazardous reactions : Contact with combustible material may cause fire.

Contact with flammables may cause fire or explosions.

Risk of explosion if heated under confinement.

Fire or intense heat may cause violent rupture of packages.

10.4 Conditions to avoid : Protect from freezing.

Contamination.

To avoid thermal decomposition, do not overheat.

10.5 Incompatible materials : Acids, bases, metals, Heavy metal salts, powdered metal salts,

reducing agents, organic materials, flammable materials.

10.6 Hazardous Decomposition

Product(s)

Oxygen

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

11.1.1 Mixtures

 $\label{eq:continuous_continuous$

Acute inhalation toxicity: LC50 4h, rat, >0.17 mg/l, vapour (H_2O_2 50%) Acute dermal toxicity: LD50, rabbit, >2,000 mg/kg (H_2O_2 35%)

Skin corrosion/Irritation : Rabbit: skin irritation (H₂O₂ 35%)

Irritating to skin. Effects may include: discolouration, Erythema,

Odema.

Serious eye damage/eye irritation : Rabbit: Severe eye irritation (H₂O₂ 10%)

Corrosivity : Corrosive to eyes. May cause irreversible eye damage.

Sensitisation : Guinea pig, did not cause sensitization on laboratory animals

Repeated dose toxicity : Oral, 90-day, mouse, Gastrointestinal tract: 300 ppm LOAEL

Oral, 90-day, mouse: 100 ppm NOAEL

Inhalation, 28-day rat, respiratory system: 10ppm, LOAEL, vapour

Inhalation, 28-day, rat: 2ppm, NOAEL, vapour

Carcinogenicity : Oral, Prolonged exposure, mouse, Target organs: Duodenum,

carcinogenic effects

Dermal, prolonged exposure, mouse, animal testing did not show any

carcinogenic effects

Mutagenicity : In vitro tests have shown mutagenic effects

In vivo tests did not show mutagenic effects

Toxicity for reproduction : Substance is totally biotransformed (metabolized)

Study scientifically unjustified

Specific target organ toxicity - single

exposure

Inhalation, mice, 665 mg/m³. Remarks: RD 50, Irritating to respiratory

system, H₂O₂ 50%

11.2 Other information : None

TD075-SP-053 Page: 7/10 Date: 12 April 2020 Revision 1.0

SECTION 12. ECOLOGICAL INFORMATION

12.1 Toxicity

Active Ingredient	Duration	Species	Value	Notes
	LC50, 96 hr	Pimephales promelas (fathead minnows)	16.4 mg/L	
	NOEC, 96 hr	Pimephales promelas	4.3 mg/L	
Hydrogen Peroxide	EC50, 48 hr	Crustaceans: Daphnia pulex (water flea)	2.4 mg/L	Fresh water, semi static test
CAS: 7722-84-1	NOEC, 48 hr	Crustaceans: Daphnia pulex	1 mg/L	Fresh water, semi static test
	EC50, 72 hr	Algae: Skeletonema costatum	2.6 mg/L	Growth rate
	NOEC, 72 hr	Algae: Skeletonema costatum	0.63 mg/L	
	NOEC, 72 hr	Algae: Chlorella vulgaris	0.1 mg/L	

12.2 Persistence and degradability

Abiotic Degradation : Air, indirect photo oxidation, t1/2: 24 hr (Conditions: sensitizer: OH

radicals)

Water, redox reaction, t1/2: 120 hr (Conditions: mineral and enzymatic

catalysis, fresh water, salt water)

Soil, redox reaction, t1/2: 12 hr (Conditions: mineral and enzymatic

catalysis)

Biodegradation : Aerobic, t1/2 < 2 min (Conditions: biological treatment sludge): Readily

biodegradable

Aerobic, t1/2 from 0.3-5 d (Conditions: fresh water): Readily

biodegradable

Anaerobic (Conditions: soil/sediments): Not applicable

12.3 Bioaccumulative potential : Bioaccumulative potential: Log Pow -1.57

Result – does not bioaccumulate

12.4 Mobility in soil

Water : Considerable solubility and mobility

Soil/sediments : Log KOC: 0.2, non significant evaporation and adsorption

Air : Volatility, Henry's law constant (H), = 0.75 kPa.m³/mol

Conditions 20°C Not significant

12.5 Results of PBT and VPVB

assessment

This substance is not considered to be persistent, bioaccumulating nor

oxic (PBT)

This substance is not considered to be very persistent nor very

bioaccumulating (vPvB)

12.6 Other adverse effects : No data available

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods : Handle in accordance with good industrial hygiene and safety practice.

Refer to protective measures listed in sections 7 and 8. Empty containers retain residue (liquid and/or vapour) and can be dangerous.

Do not burn, or use a cutting torch on, the empty drum.

13.2 Additional Information : None

TD075-SP-053 Page: 8/10 Date: 12 April 2020 Revision 1.0

SECTION 14. TRANSPORT INFORMATION

14.1 Land transport (ADR/RID)

UN number : UN 2014

Proper Shipping Name : HYDROGEN PEROXIDE, AQUEOUS SOLUTION

Transport hazard class(es) : 5.1

ADR/RID-Labels : 5.1 – Oxidizing substances

8 - Corrosive

Packing Group : I

Hazard label(s) :

Environmental hazards : None Special precautions for user : None

14.2 Sea transport (IMDG)

UN number : UN 2014

Proper Shipping Name : HYDROGEN PEROXIDE, AQUEOUS SOLUTION

Transport hazard class(es) : 5.1

IMDG Labels : 5.1 – Oxidizing substances

8 - Corrosive

Packing Group : II

Marine Pollutant : No

Special precautions for user : None

14.3 Air transport (ICAO/IATA)

UN number : UN 2014

Proper Shipping Name : HYDROGEN PEROXIDE, AQUEOUS SOLUTION

Transport hazard class(es) : 5.1

ICAO labels : 5.1 – Oxidizing substance

8 - corrosive

Packing Group : II
Environmental hazards : None
Special precautions for user : None

14.4 Transport in bulk according to

Annex II of MARPOL73/78 and the

IBC Code

Not applicable

SECTION 15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture substance or mixture

15.1.1 Canadian Regulations : Refer to Canadian regulation for details of any actions or restrictions

by relevant regulations or directives

WHMIS (2015) : Compliant.

Therapeutic Products Directorate : DIN: 02423014

15.1.1 Other National regulations : Refer to national regulation for details of any actions or restrictions by

relevant regulations or directives

15.2 Chemical Safety Assessment : A Chemical Safety Assessment has been carried out for this mixture

(hydrogen peroxide)

TD075-SP-053 Page: 9/10 Date: 12 April 2020 Revision 1.0

SECTION 16. OTHER INFORMATION

The following sections contain revisions or new statements

None (first issue).

ABBREVIATIONS & ACRONYMS

STOT : Specific Target Organ Toxicity
WEL : Workplace Exposure Limit
TLV : Threshold Limit Value
TWA : Time-Weighted Average
STEL : Short-Term Exposure Limit
LTEL : Long-Term Exposure Limit
PNEC : Predicted No Effect Concentration

DNEL : Derived No Effect Level
DMEL : Derived Minimal Effect Level

LOAEL : Lowest-observed-adverse-effect Level
NOAEL : No-observed-adverse-effect Level
NOEC : No Observed Effect Concentration

References : Sources of information used in preparing this SDS included one or

more of the following: results from in-house or supplier toxicology studies; publications from trade associations; ECHA publications; EU

guidelines and other sources as appropriate

Training Advice : All users should be trained

Additional Information : None

Information contained in this publication or as otherwise supplied to Users is believed to be accurate and is given in good faith, but it is for the Users to satisfy themselves of the suitability of the product for their own particular purpose. Bioquell gives no warranty as to the fitness of the product for any particular purpose and any implied warranty or condition (statutory or otherwise) is excluded except to the extent that exclusion is prevented by law. Bioquell accepts no liability for loss or damage (other than that arising from death or personal injury caused by defective product, if proved), resulting from reliance on this information. Freedom under Patents, Copyright and Designs cannot be assumed.
